Support the conference practitioners actually attend

Recursion brings together researchers, compiler engineers, and practitioners from across the functional programming community for two days of talks and conversation in New York City. Sponsors help us keep the conference well run and accessible, and in exchange we put your name in front of the room: on our website, in the venue, and with a way to reach our audience directly.

What a partnership looks like

Every sponsor receives:

- Your logo on our website, and across event signage at the venue
- Complimentary tickets to attend, for you and your team
- A unique discount code to share with your audience

We do not yet run fixed sponsorship tiers or a published price list. Write to us with a little about your organisation and what you are hoping to support, and we will work out a package with you directly – what you are able to give, and what you would like in return.

Key Dates

The dates below apply to the conference as a whole.

● 31 August 2026	Call for Proposals Deadline
● 30 September 2026	Early Bird Registration Deadline
● 15 October 2026	Regular Registration Deadline
● 29 & 30 October 2026	Conference Dates

Who You'll Reach

Recursion 2026 is the conference's second edition. The figures below are our best estimate, drawn from last year's turnout together with registration interest and the speaker programme for this year.

JetBrains

Hudson River Trading

Optiver

Susquehanna
International Group

think-cell

Bright Data

IBM

AMD

Google Cloud

Adobe

Red Hat

Become a sponsor

Getting started is simple – reach out, and we'll take it from there.

1. **Get in touch.** Email sponsors@recursion26.org with your organisation's name and a little about what you're hoping to support.
 2. **Send your logo.** We'll add it to our website and event materials, and set up your discount code.
 3. **We'll work out the details together.** We don't run fixed packages, so we'll follow up to figure out what makes sense for both of us, and get your tickets sorted.
-

By confirming a sponsorship, the sponsor affirms that all promotional content will represent Recursion 2026 accurately and in good faith. Questions about scope or a custom arrangement are always welcome.

Have questions first?

We're happy to talk through what a partnership could look like for your organisation.

sponsors@recursion26.org

Thank you for considering a sponsorship of Recursion 2026. We look forward to building this conference together.
